Disclosure notice

- This document and any accompanying documents and information ancillary thereto (together the "Documentation") have been prepared by Qualitas Equity Funds S.G.E.I.C. ("QEF") and may not be used or relied upon for any purpose other than as specifically contemplated by a future transaction.
- The Documentation is for informational purposes only and the recipient understands and agrees that no contract or agreement shall be deemed to exist between the recipient and QEF unless and until a final, legally binding definitive agreement has been executed and delivered to QEF.
- The Documentation does not constitute an offer for purchase, sale or subscription of or solicitation or invitation of any offer to purchase, sell or subscribe for any securities and is not a commitment by QEF (or any of its affiliates) to provide or arrange any financing for any transaction or to purchase any securities in connection therewith.
- QEF assumes no responsibility for independent investigation or verification of any of the information contained in the Documentation. QEF has, in particular, relied upon the accuracy and completeness of all of the financial, accounting and other information discussed with, provided to and reviewed by it and has assumed such accuracy and completeness for the purposes of the Documentation. QEF has also assumed that any information reproduced in the Documentation is accurate, complete and based on reasonable assumptions. Neither QEF nor any of its affiliates, directors, officers or employees makes any representation or warranty, express or implied, as to the fairness, accuracy or completeness of the information contained in the Documentation or as to the reasonableness of the assumptions on which such information is based. To the extent permitted by applicable law and regulation, each of QEF, its affiliates and each partner, member, director, officer, employee and agent of QEF expressly disclaims any and all liability for the contents of, and any omissions from, the Documentation.
- The Documentation may contain forward-looking information and statements. These may include financial projections and estimates and their underlying assumptions, statements about plans, objectives and expectations with respect to future operations, and statements regarding future performance. Such information and statements are subject to various risks and uncertainties, many of which are difficult to predict, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. Phrases such as 'QEF expects', 'QEF believes', and similar phrases do not constitute representations, warranties, assurance or guarantees of any kind, express or implied, but merely represent the view of QEF based upon information available to it. Past or projected performance is not necessarily indicative of future results and there can be no assurance that comparable results will be achieved or that any projected returns will be met. The business, operations and financial state of the relevant entities and assets are subject to change, as are the views expressed in the Documentation. In furnishing the Documentation, QEF does not undertake any obligation to update the Documentation, provide the recipient with any additional information, or correct any inaccuracies that may become apparent in any information provided.
- The Documentation is not intended to constitute the basis for evaluation of a transaction and any decision to participate in a transaction should be made after conducting all appropriate investigations and consulting with legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of any such transaction. The Documentation does not disclose all the risks and other significant issues related to any securities or transaction described therein. Recipients should not make any decision related to any securities or transactions described herein on the basis of the Documentation alone. Any investment is speculative and involves a high degree of risk and is suitable only for sophisticated investors with such knowledge and experience in financial and business matters as to be capable of evaluating on their own the merits and risks of participation. You should conduct your own inquiries as to the adequacy, accuracy, completeness and reliability of any information relating to the Documentation. The Documentation does not constitute a fairness opinion unless expressly stated to the contrary, and does not constitute legal, tax or accounting advice by QEF. Any statements contained in the Documentation were not intended by QEF or any of its affiliates to be used and cannot be used by any taxpayer for the purpose of avoiding tax, penalties or associated liabilities.
- A valuation is a complex exercise and is not necessarily susceptible to a partial analysis or summary description. In performing any valuation, QEF has considered the results of all of its analyses as a whole and has not necessarily attributed any particular weight to any analysis or factor considered. Furthermore, selecting any portion of QEF's analyses, without considering all analyses, would create an incomplete view of the process underlying the valuation. QEF may have deemed various assumptions more or less probable than other assumptions, so the ranges of valuations resulting from any particular analysis described above should not be taken to be QEF's view of the actual value of the relevant entities or assets.
- The distribution or possession of the Documentation in certain jurisdictions may be restricted by law or regulation. Persons in whose possession this document comes are required to inform themselves about, and to observe any such restrictions. Neither QEF not its subsidiaries, affiliates, directors, officers, or employees accept any liability to any person in relation to the distribution of the Documentation in these jurisdictions.
- The Documentation and all of its contents are confidential, have not been prepared with a view to public disclosure under national, state or federal securities laws or otherwise and have been prepared for the exclusive use of the persons to whom it is addressed. Accordingly, the Documentation and its contents may not be (i) copied, distributed, published or reproduced, in whole or in part, or disclosed by any recipient to any other person; or (ii) used for any other purpose, in each case, without QEF's prior written consent. If any person receives the Documentation in breach of these restrictions, it should be immediately returned to QEF. QEF retains the right to request the return of the Documentation (to the extent in physical form) at any time. No person shall be treated as a client of QEF or be entitled to the protections afforded to clients of QEF, solely by virtue of having received the Documentation.
- Investing in a private equity fund may entail risks, such as, but not limited to, risk of illiquidity if the investor decides to undo its position before the stated schedule, value of investments may increase or decrease, underlying investments are by and large non-listed companies which may have debt, the fund's commissions impact its valuation. Within the subscription documents, the fund prospectus and the KID document there is a description of the main risks of the fund. Investors must understand the product and accept its risks.
- BY ACCEPTING AND REVIEWING THIS DOCUMENT YOU ARE AGREEING TO THE FOREGOING LIMITATIONS. SHOULD YOU NOT AGREE WITH ALL OF THE ABOVE, YOU SHALL REFRAIN FROM READING, REVIEWING, FORWARDING OR MAKING ANY USE AT ALL OF THESE MATERIALS AND SHALL PROCEED TO THEIR DESTRUCTION IMMEDIATELY.

QUALITAS
FUNDS

- Euro: 55–65%
- GBP: 20–30%
- Swedish / Danish / Norwegian Krona: 15–30%
- Swiss Franc: 0–5%

Diversification by vintage

- 2024: 5%
- 2025: 25%
- 2026: 40%
- 2027: 30%

Diversification in companies

- 150-200 companies

Qualitas Funds value creation drivers

1	2	3	4	5
Focus on the European lower mid-market	**Efficient fund size**	**Technology-driven investment selection**	**Co-investment and secondaries**	**Transparent results**

VALUE DRIVER

European funds <€500MM	Fund fully committed in 12-18 months	Unique proprietary data base following +48,000 funds	Up to 30% invested in co-investment and secondaries	Market-leading investor information

BENEFITS

Higher return and lower risk than large-caps	Faster deployment and lower fees	Better fund selection based on Qualitas' algorithm	Faster deployment and lower fees	Real time results of the entire portfolio

1

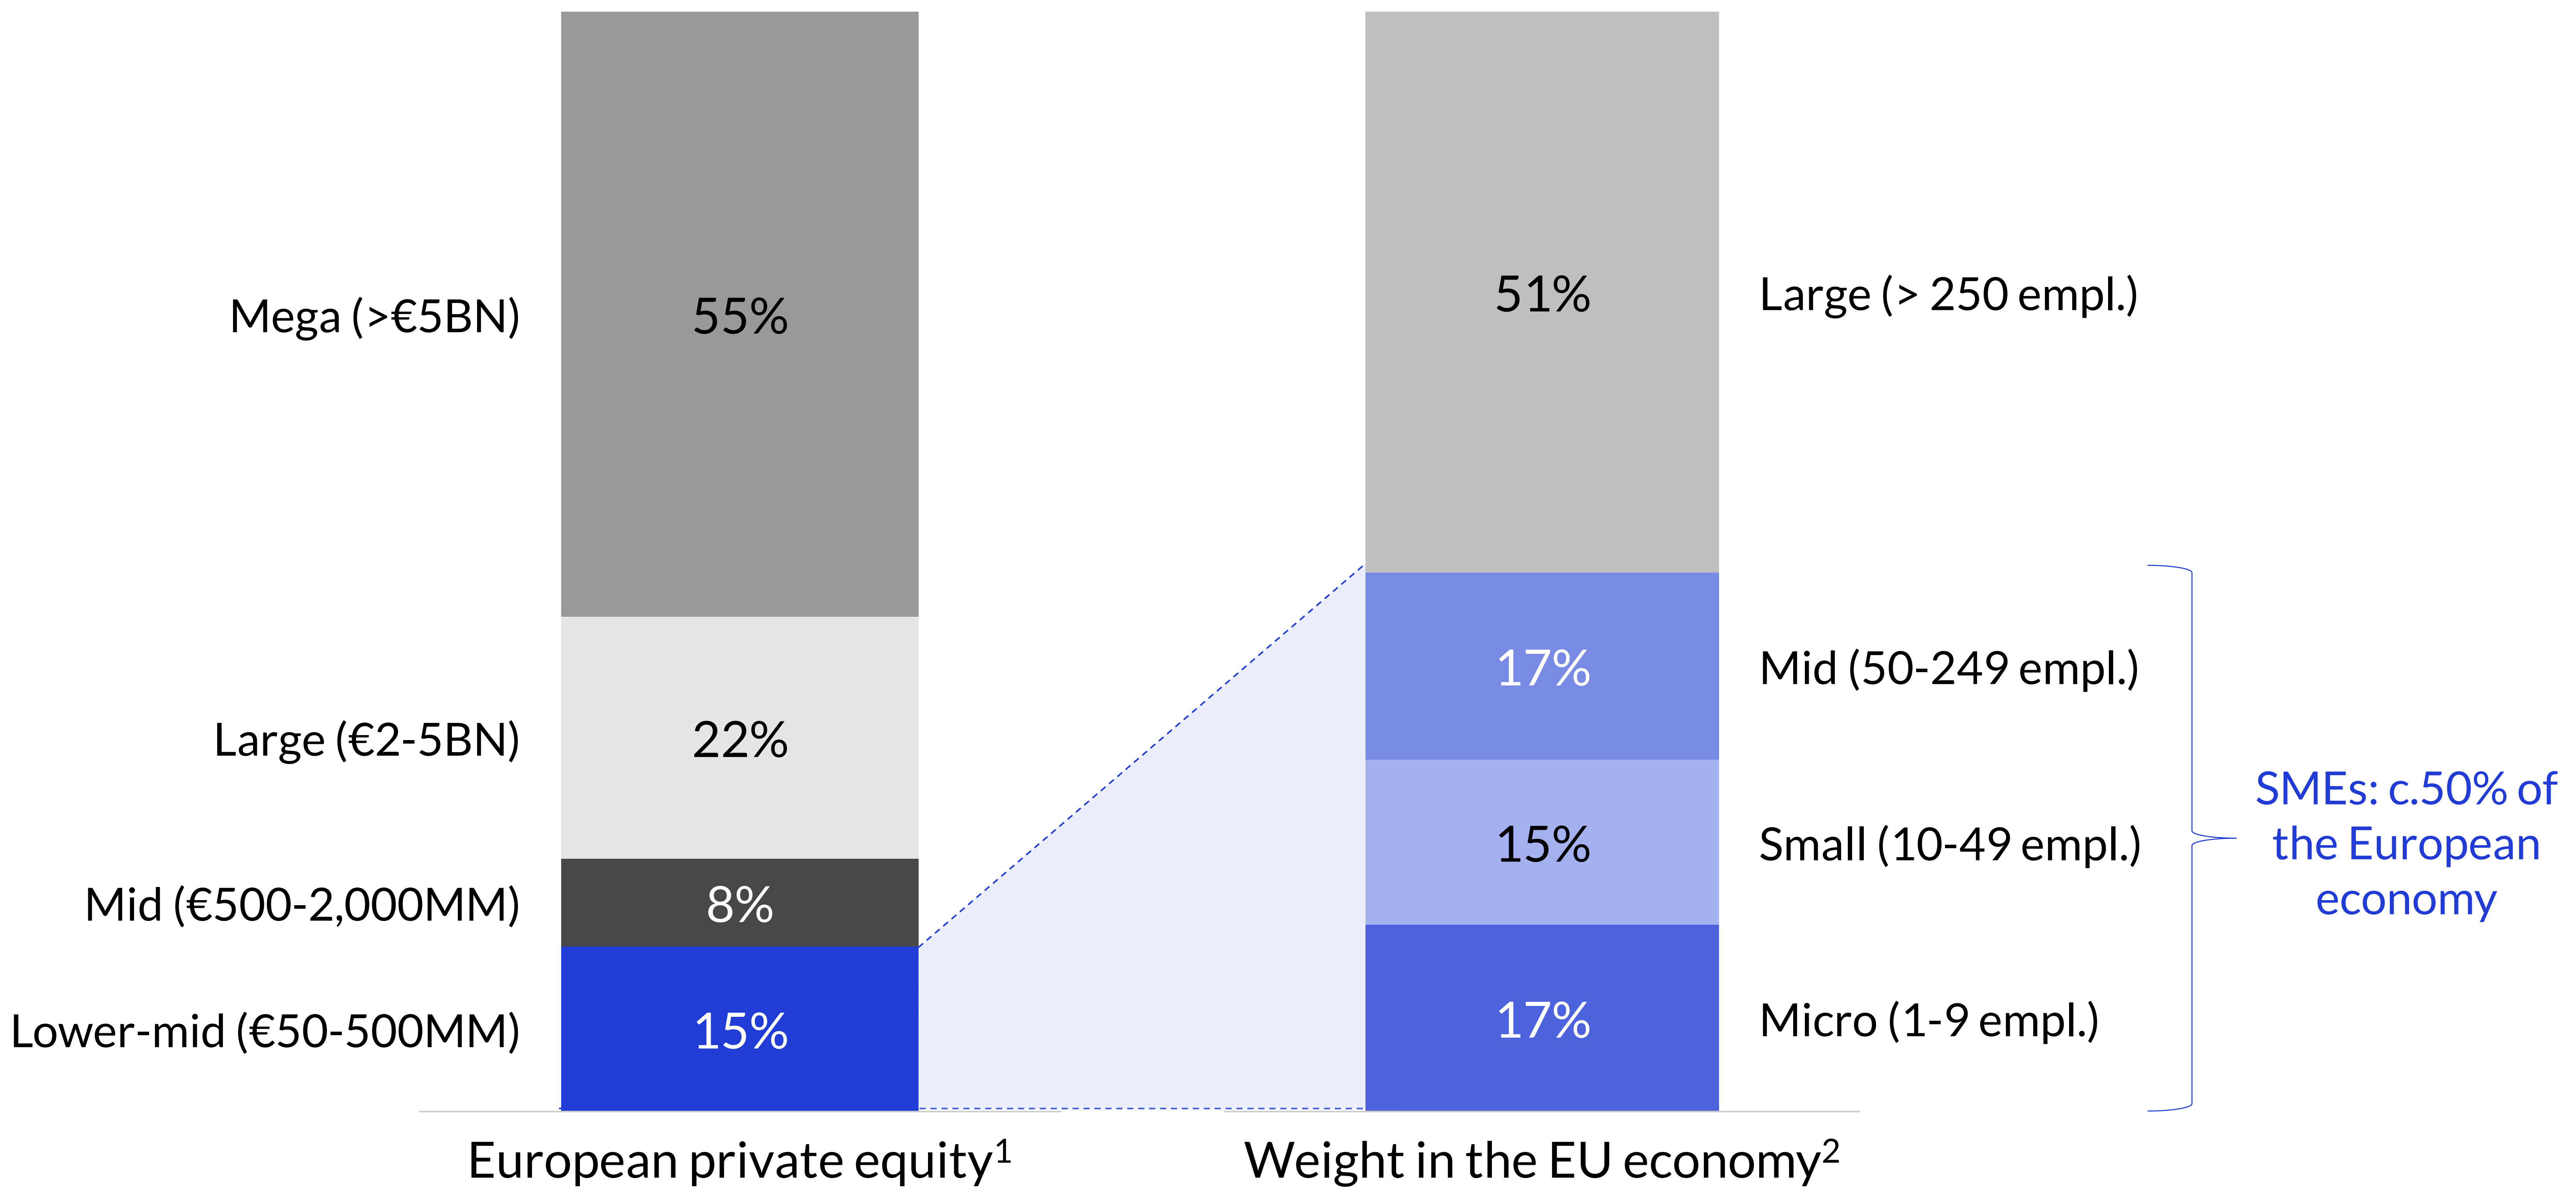
Focus on the European lower mid-market

Qualitas Funds value creation drivers

Attractiveness of the European lower mid-market

98% of companies operating in the European Union are small and medium-sized, and employ two thirds of the active population

More favourable supply/demand balance

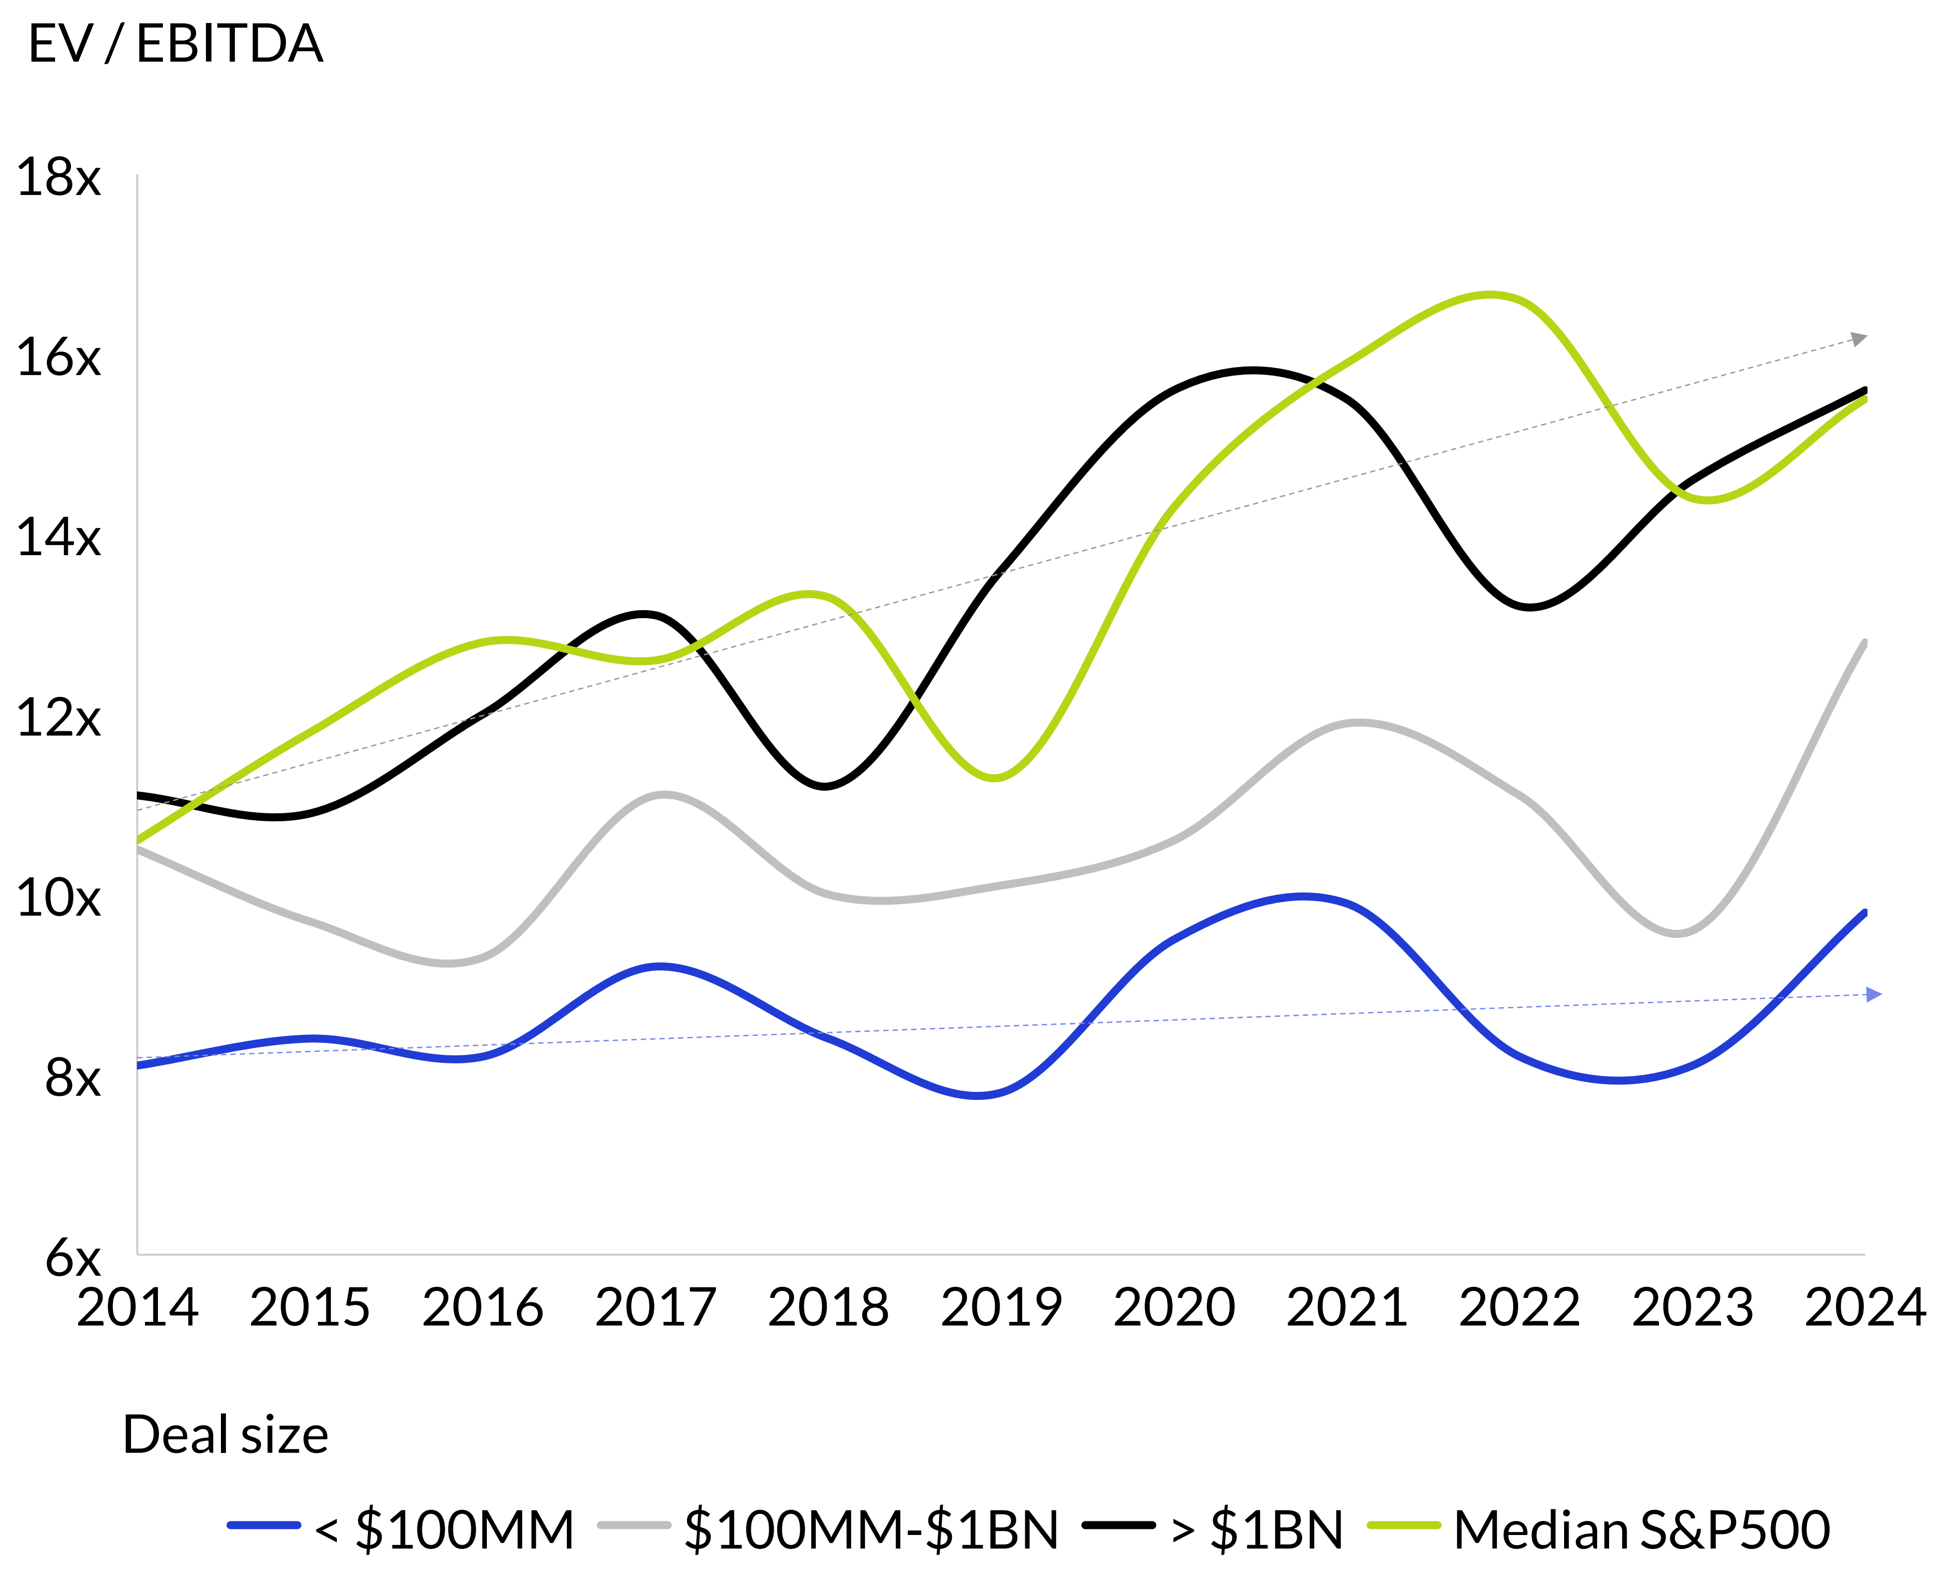


Note 1: Average fundraising between 2019–2023. | 2. Based on total sales of all companies in the European Union. | Sources: PitchBook; European Commission Enterprise Statistics by Size Class on EU economy 2023 (Eurostat).

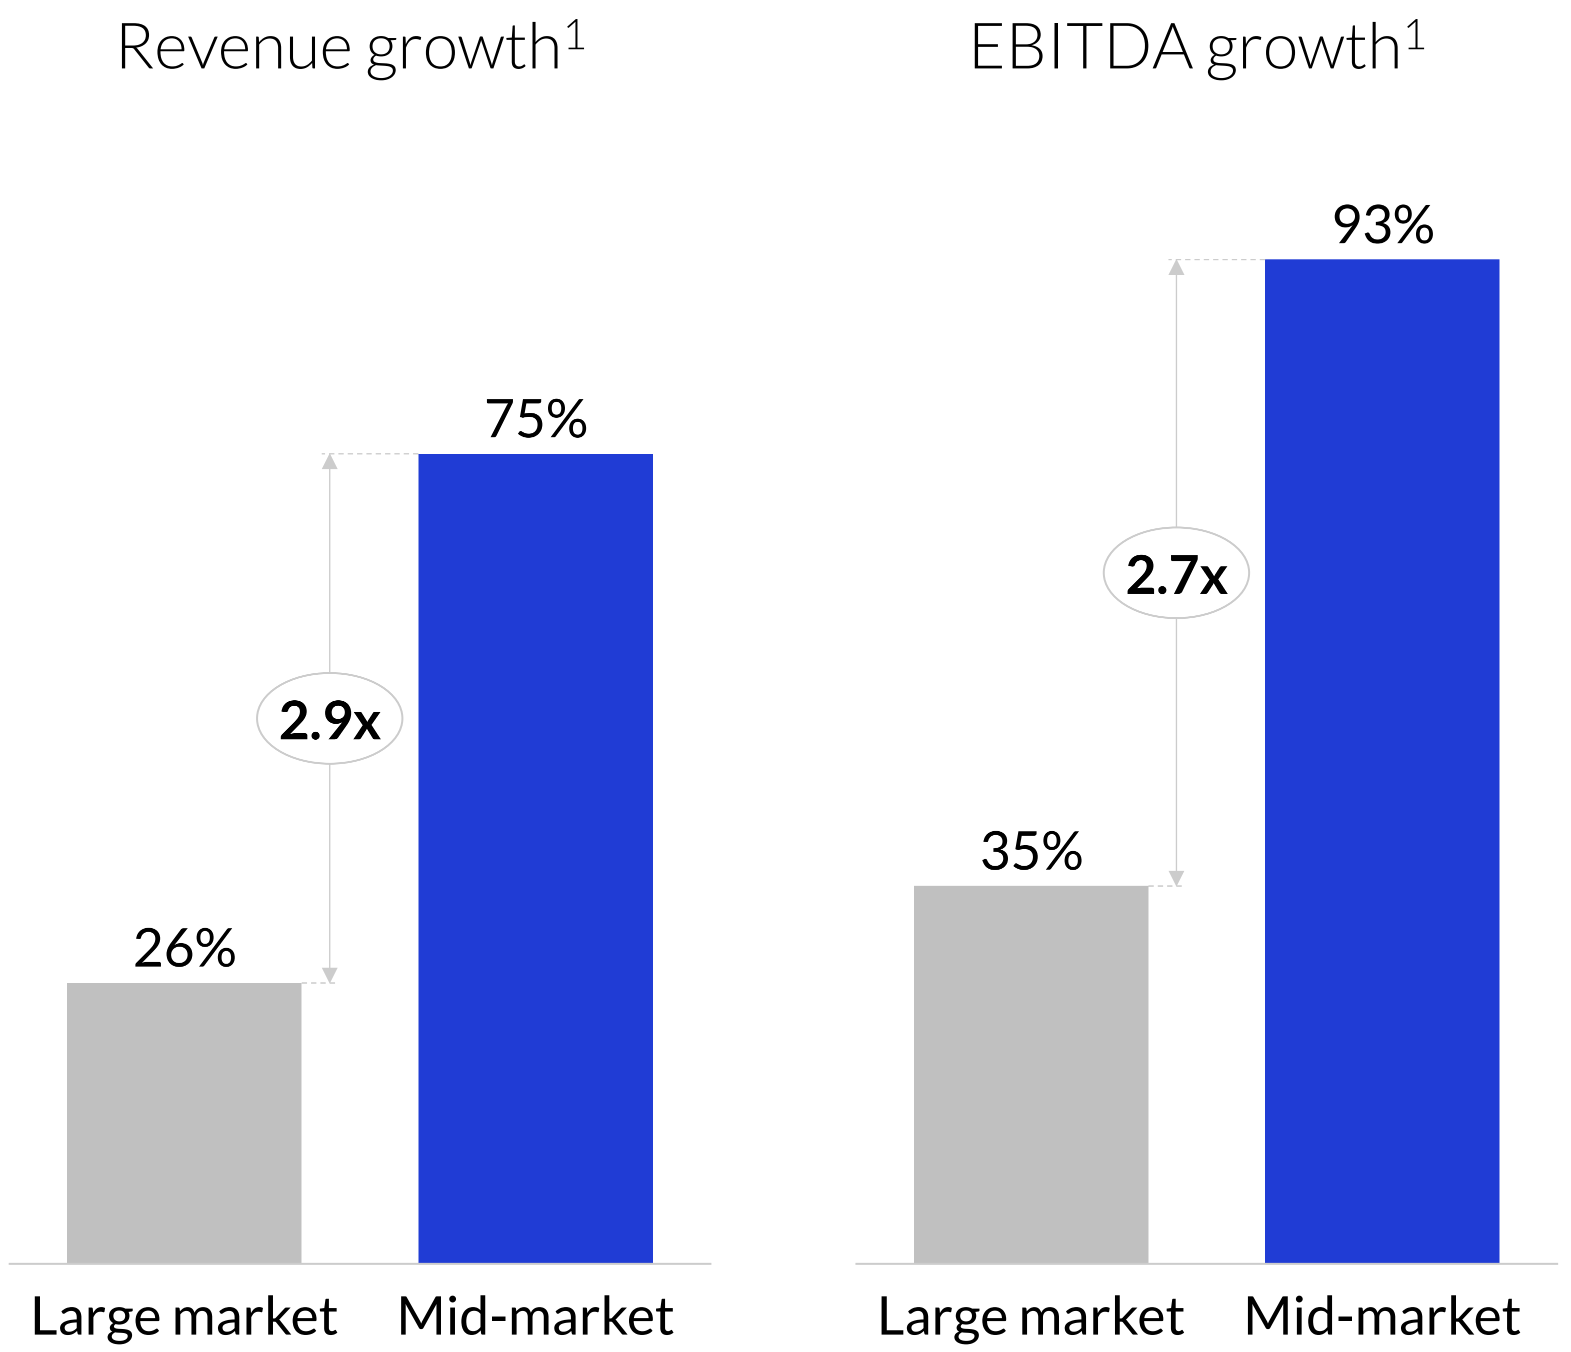
Segment with lower pricing and higher value creation potential

Multiples in the lower mid-market offer better value creation opportunities and strong return potential

Cheaper mid-market valuations



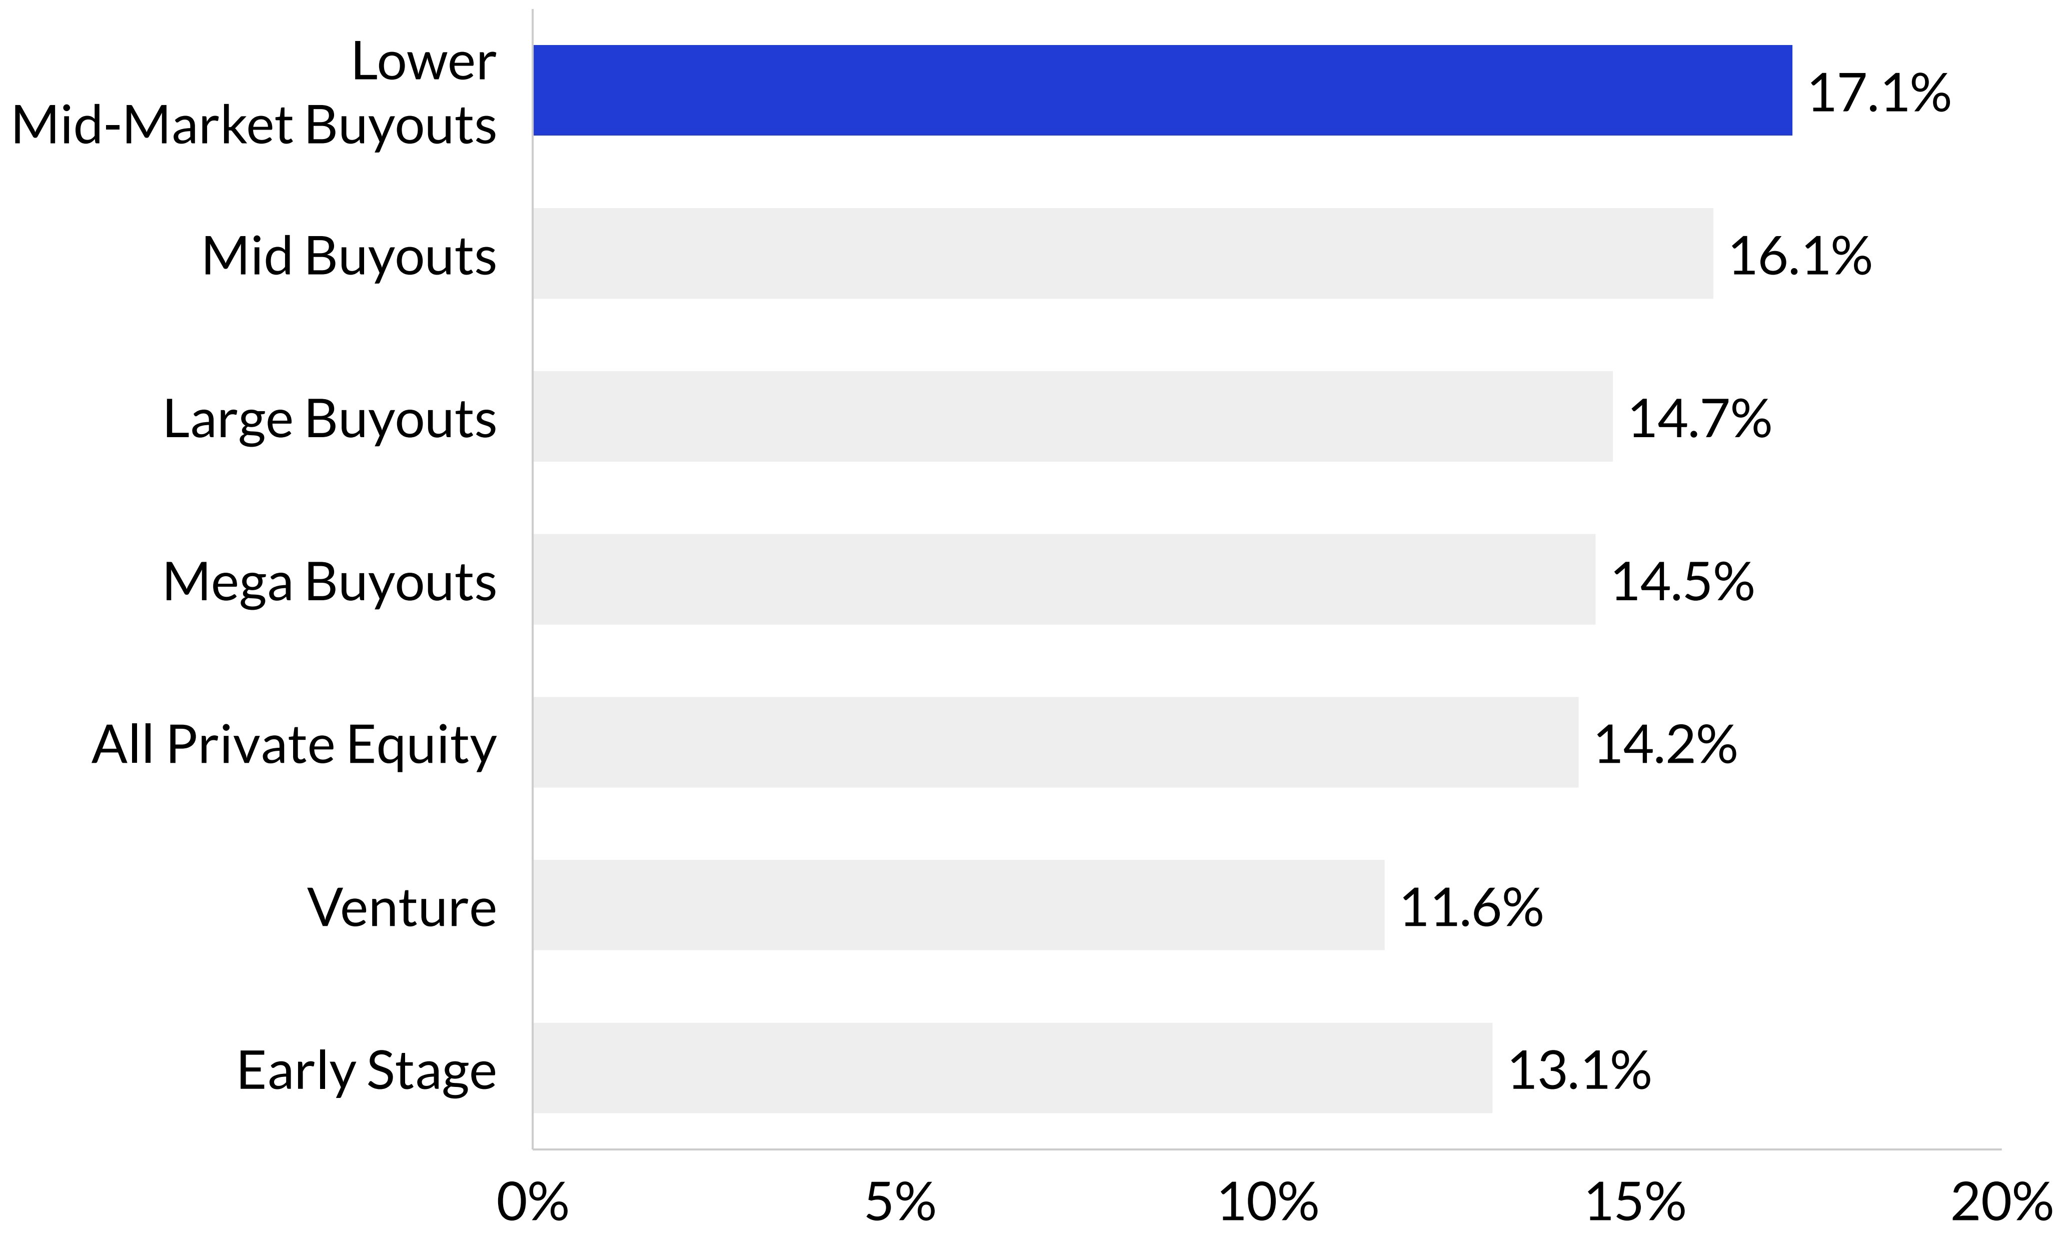
Greater growth potential in mid-market companies



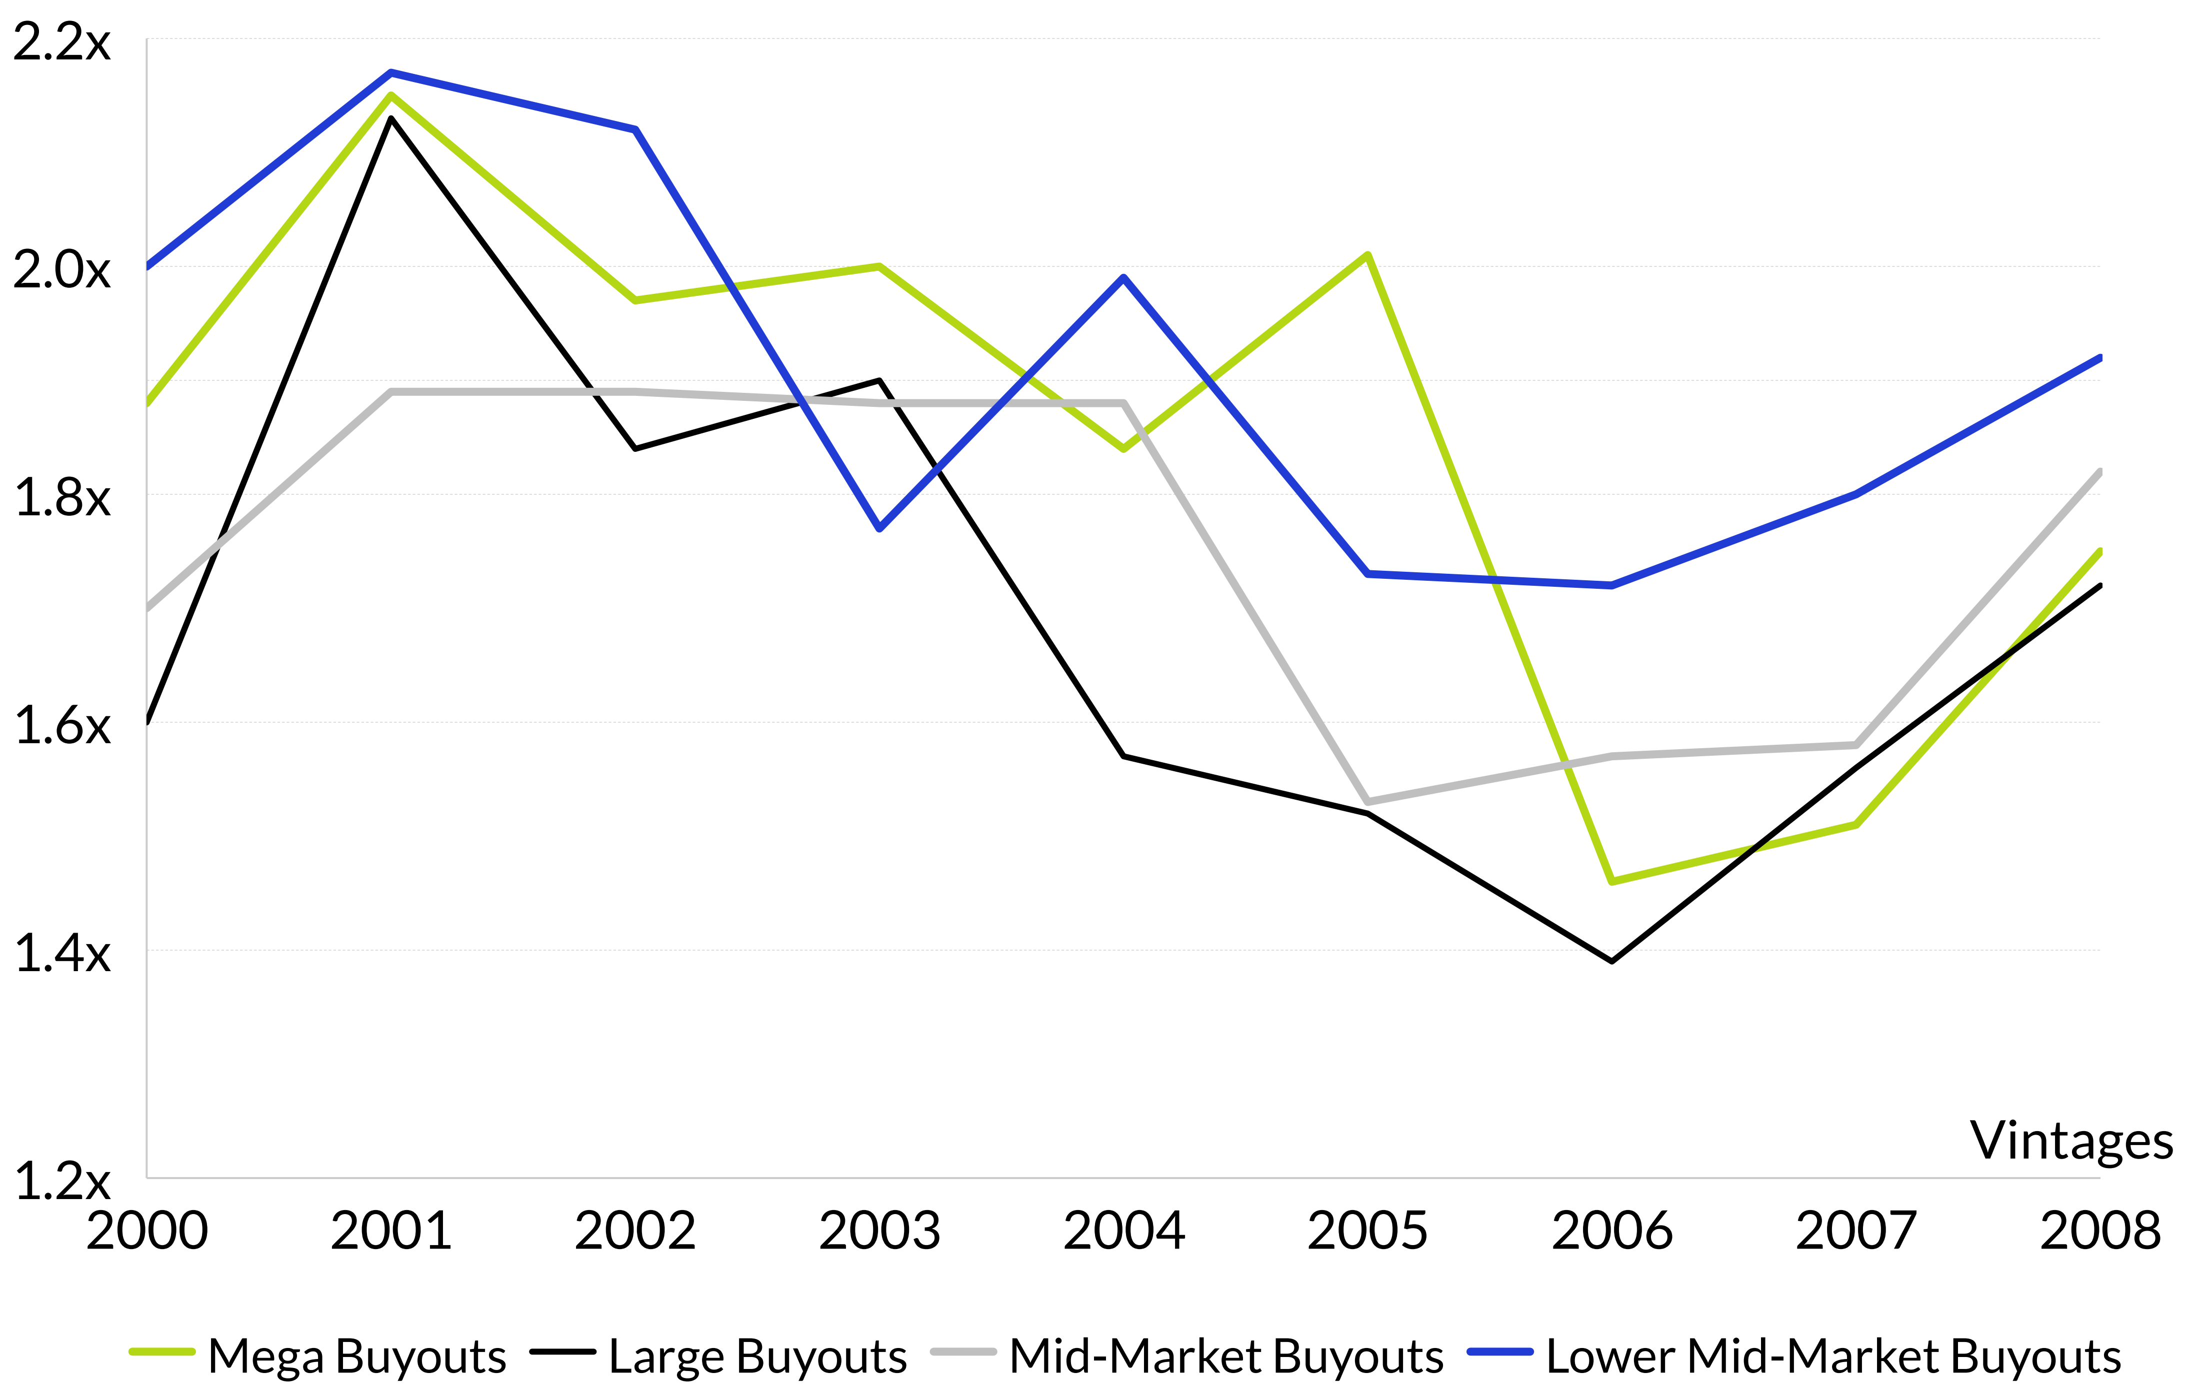
Sources: PitchBook "Middle market PE offers fertile ground for multiple arbitrage"; Morgan Stanley "The Founder Advantage: Finding Alpha in Middle-Market Private Equity". | Note 1: Weighted average growth over the holding period reported by private equity funds as of Q3 2023. | Middle market: deal size ≤ $500MM; Large market: deal size > $500MM. | N = 166 | Geography = U.S.

Higher returns and lower risk in the lower mid-market

Annualized return of private equity funds (2013-2023)



Average TVPI of PE funds in liquidation



Note: Lower Mid Buyout : €50-500MM; Mid Buyouts: €500-2,000MM; Large Buyouts: €2-5BN; Mega Buyouts: > €5BN. | Volatility calculated based on standard deviation of annual return. | Source: Qualitas Funds' analysis based on Private Capital Quarterly Indexes data and Preqin.

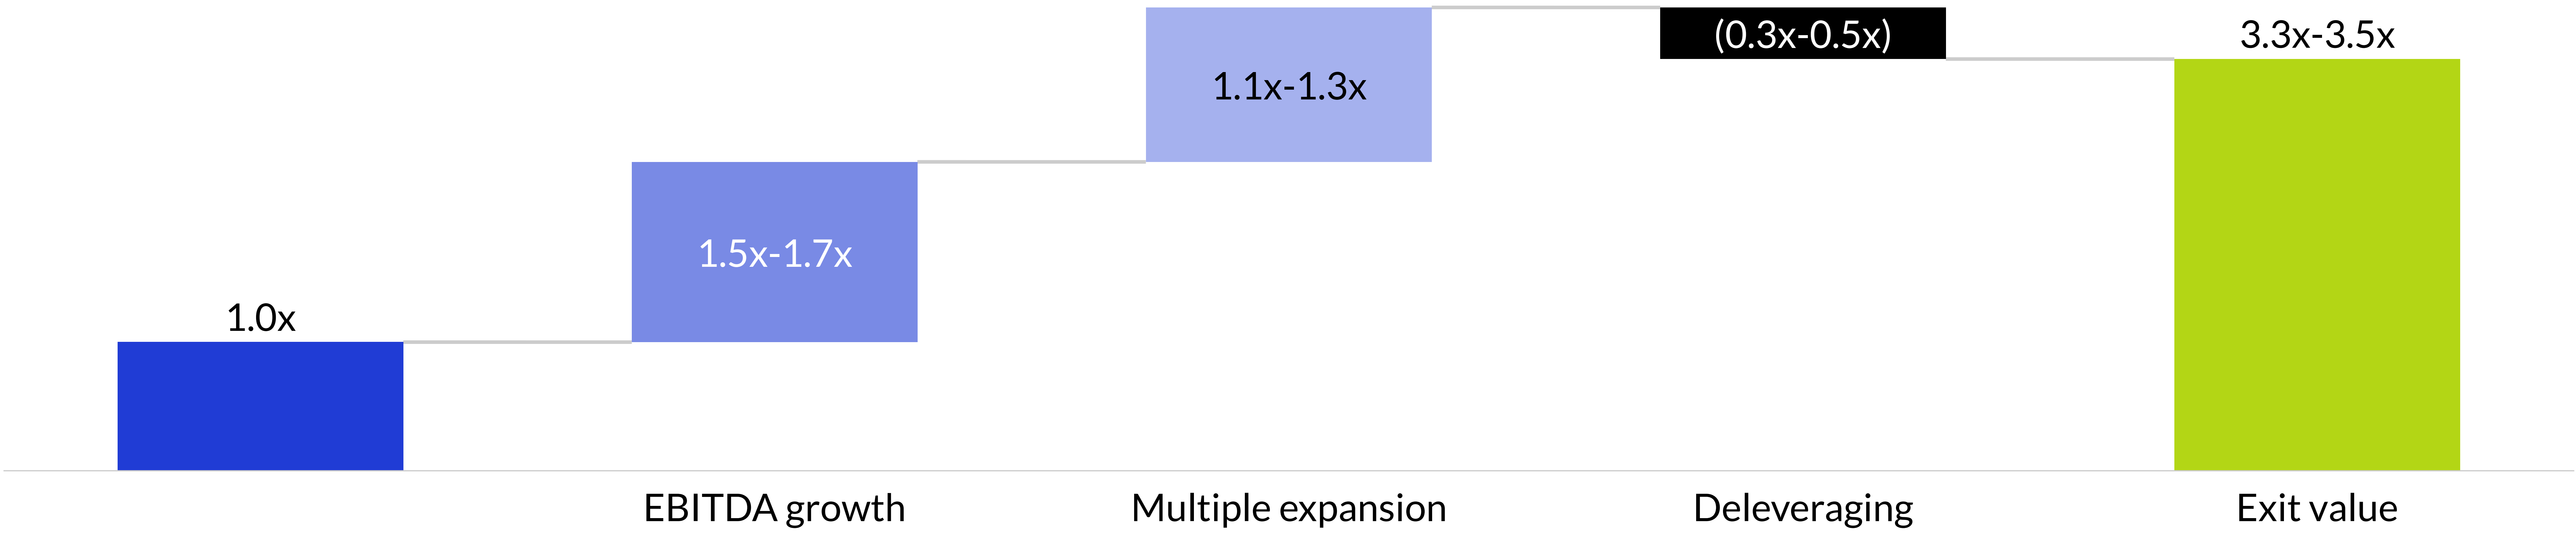
300 basis points higher IRR for funds of <€500MM, compared to the PE market

Funds <€500MM imply less leverage risk, lower prices and lower volatility

Key aspects of value creation in this segment

Return drivers in lower mid-market buyouts

ILLUSTRATIVE



EBITDA growth

It is easier to enhance the growth of smaller companies, with clear investment strategies such as buy & build, buyout, among others.

Multiple expansion

The acquisition of companies at lower prices in inefficient, non-brokered transactions makes multiple arbitrage possible.

Deleveraging

The low level of debt minimizes the reduction in returns by deleveraging the company, providing downside protection and reducing volatility.

Source: CAIA Association. *"Returns In Focus - Value Creation Shines in the Lower Middle Market"*.

Low risk approach to investment in medium-sized companies

What we focus in

Buy at low multiples EV/EBITDA	7-8x
Low leverage Net Debt/EBITDA	1.5-2.0x
Mature companies Sales (€MM)	50-75
Profitable companies Target EBITDA margin	15-20%
High growth companies Target EBITDA growth	20-25%

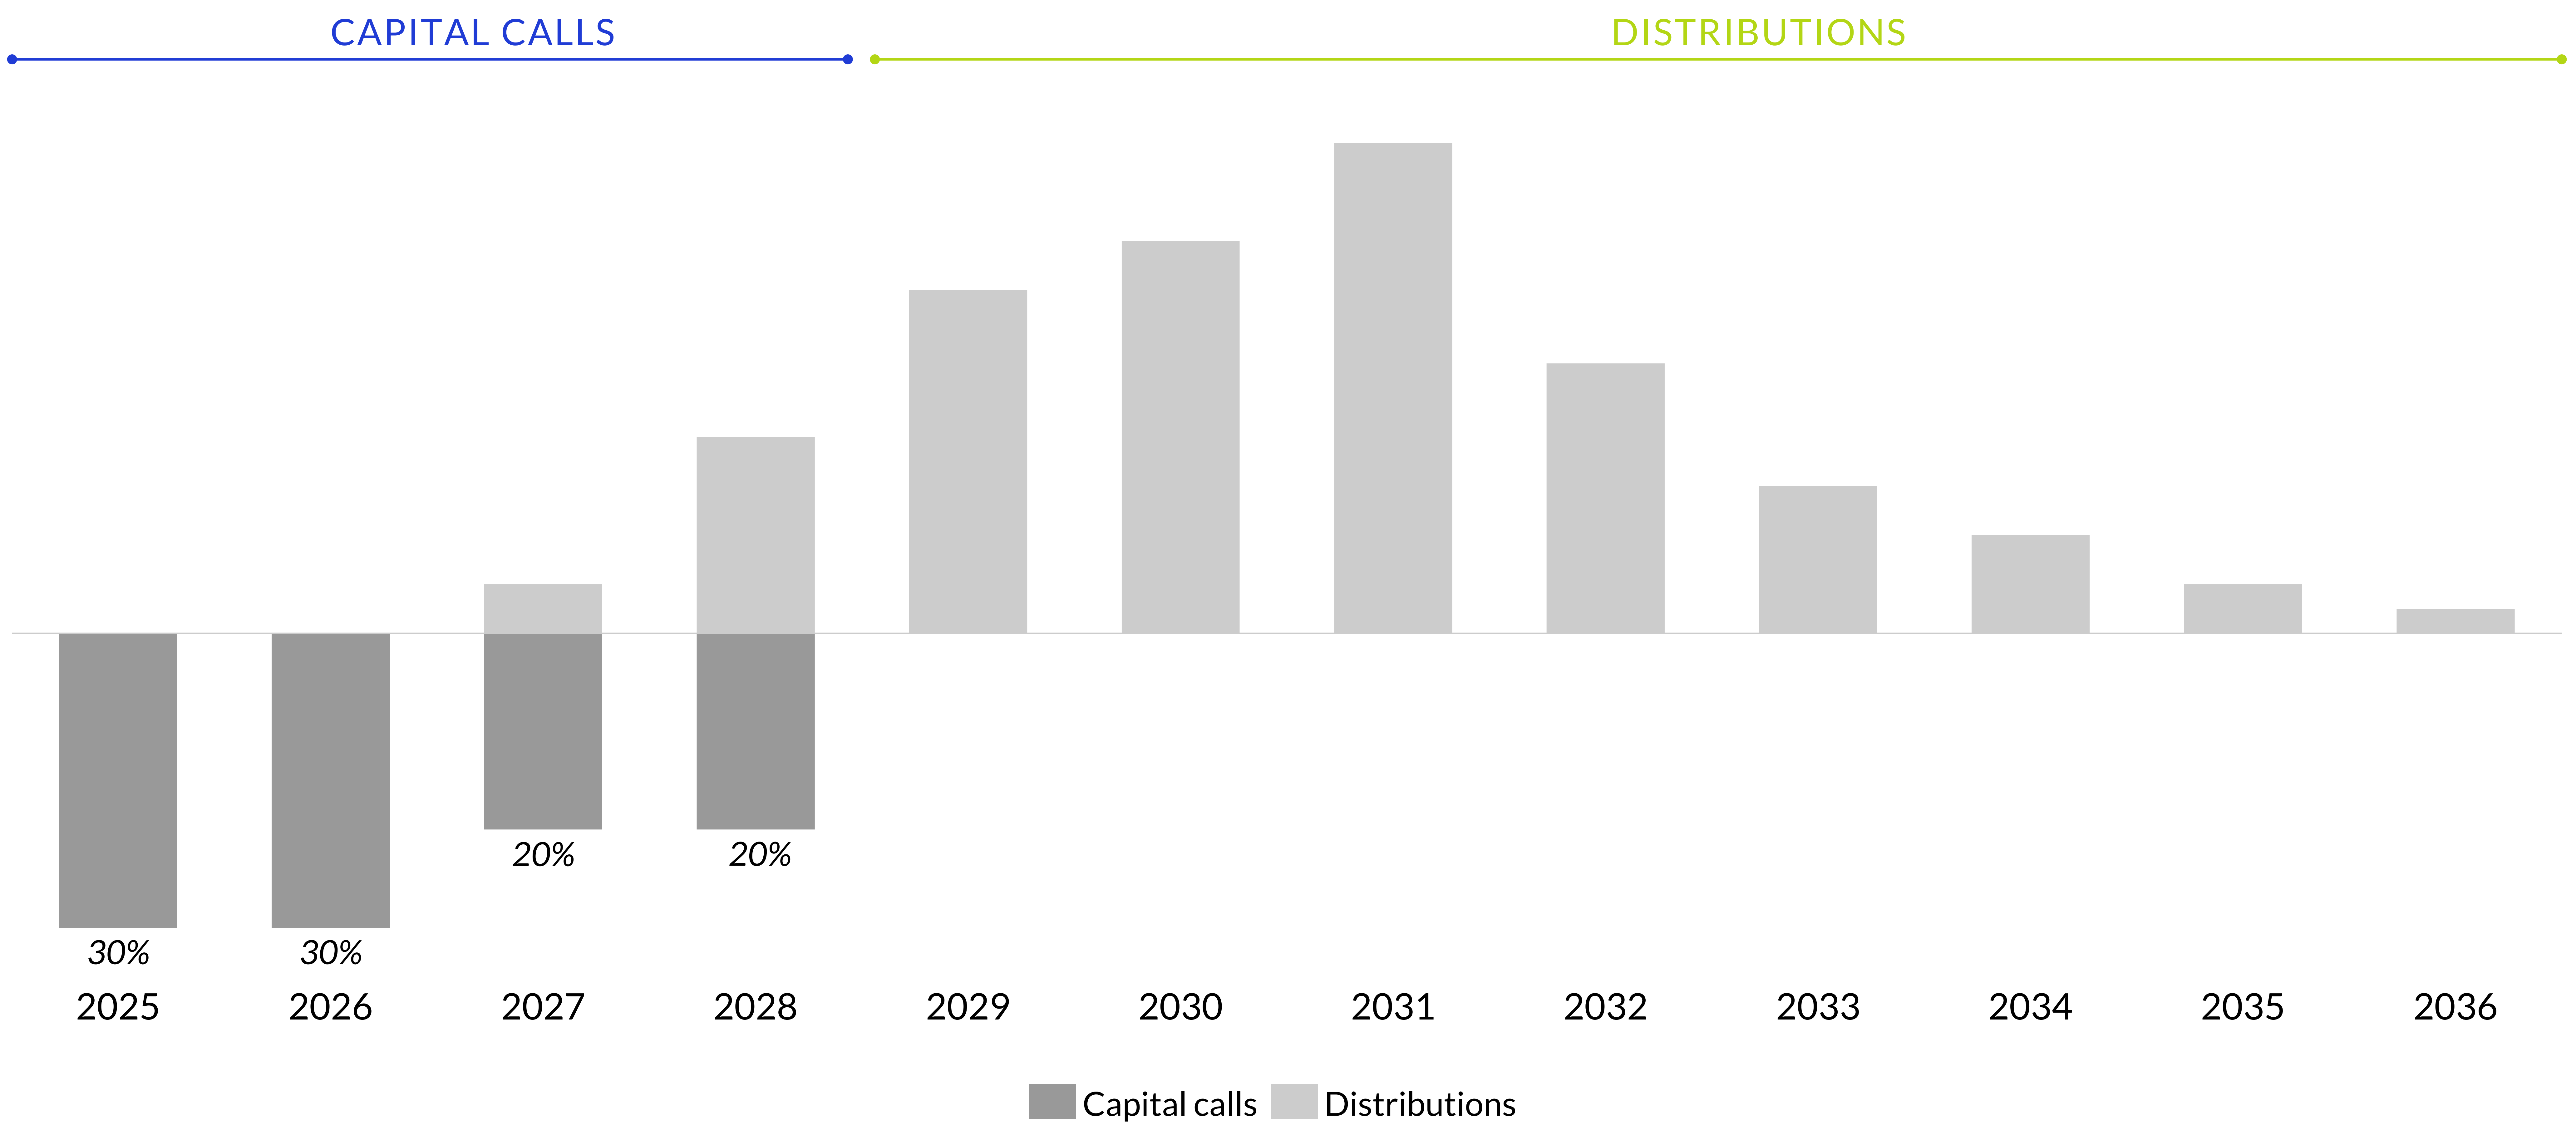
2

Efficient fund size

Qualitas Funds value creation drivers

Efficient size enables rapid deployment and distributions

Expected cash flows for a commitment in Qualitas Funds VII in 2025



Note: Ilustrative cash flows.

3
